

**ATTACHEMNT J-15**  
**ALTERNATE SITE FOR CERTIFICATE OF INSPECTION (COI)**

Alternate location for COIs: MARAD has posted copies of COIs in the technical library for as many groups as possible.

As an alternate, the Coast Guard maintains a "Port State Information Exchange" website that contains public information from the MISLE database. It should include pertinent COI data for RRF ships.

<http://cgmix.uscg.mil/psix/psix2/>

Additionally, wind speeds by port to assist you with mooring plan development are listed under "Misc" in the technical library.
